## **DETAILED ACTION**

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The claims in the instant application have not been rejected using prior art because no reference, or reasonable combination thereof, could be found which suggest, disclose, a player time selectable bonus award scheme whereby the player redeems, accrued winning outcomes during base game play at the time of player's choosing and not displaying the winning outcome associated with the game outcome till after the current play is concluded.

The prior art of the record (Sharpe UK Patent 2,099,198) teaches or suggests, a wagering game wherein the game provides player an option to redeem winning outcome associated with the winning combination. However Sharpe fails to teach and not displaying the winning outcome associated with the game outcome till after the current play is concluded. Thus Sharpe fails to disclose the claimed invention.
